

K124 POWDERED FLOOR CLEANER

Heavy Duty Floor Cleaner

Industrial/Automotive Powders Granules & Tablets

Powdered Floor Cleaner quickly soaks into grease, oil and dirt on cement floors. It loosens and dissolves hard-to-get, embedded soil and floats it to the surface so it can be easily rinsed away. Pleasantly pine scented. Will not dry to a slippery finish. When used on grimy concrete surfaces, it will prevent grease and oil from being tracked into other areas.

FEATURES:

- * Works Well On The Heaviest Soil - Quickly soaks into oil, grease and dirt on concrete floors. Even hard-to-get, embedded soil is flushed out - ready to be rinsed away.
- * Use To Clean Most Concrete Floor Areas - Recommended for use on concrete floors in garages, service stations, factories, driveways, food processing plants and bottling plants.
- * Easy-to-Use, Versatile Too - Just follow dilution directions that are suggested for either general cleaning, heavy-duty cleaning, or even for painted concrete floors. Dissolves in water completely and quickly. No waiting, rinses fast.
- * Fast & Effective - Since it quickly and effectively removes oil and grease from pavement surfaces, the concrete dries lighter in color. The difference is very visible.
- * Helps Prevent Slips & Falls - Reduces chances of accidents caused by buildup of oil and grease stains. Also helps prevent tracking onto carpets and car interiors.
