

# K221 POWERZYME TRS

## *Enzyme Grease Trap Solid*

## Sewer & Drain Maintenance Powders

**Powerzyme TRS** consumes grease, fats, oils, foods, etc. Dramatically reducing costly grease trap maintenance and eliminating odors. Every **Powerzyme TRS** contains 1 billion colony forming units per gram (5 different types) ensuring fast, continuous consumption even when harsh chemicals enter the trap.

### Absolute Best Grease Treatment

At Least 3 Times Better Than Liquids - **Powerzyme TRS** blocks stay in the trap and continuously release select spore-form bacteria over a 30-day cycle.

Continuous Grease Consumption - Unlike liquids that freely flow through any trap, the **Powerzyme TRS** block stays in the trap working 24 hours per day.

Chemical Resistant - Harsh chemicals like bleaches and sanitizers do not impact performance like they do liquids.

Eliminates Odors - Banishes the indescribable stench associated with grease traps by eliminating the grease before it has a chance to decompose.

Safe For The Environment- Unlike chemical and bacterial emulsifiers that only dissolve grease, the **Powerzyme TRS** actually digests grease turning it into carbon dioxide and water.

### FEATURES:

- \* Each Block Contains Bacterial Spores Selected For Their Effectiveness In Eliminating Grease By Digesting It Into CO<sub>2</sub> & H<sub>2</sub>O
- \* Reduce Grease Trap Odors By Up To 96%
- \* Reduce Effluent BOD Levels By Up To 80%
- \* Reduce Scheduled Pumpings
- \* Reduce Emergency Service Calls
- \* EPA & Health Department Compliant
- \* Facilitates Grease Trap Cleanings
- \* Treats Grease Traps Of All Sizes
- \* Easy To Use - Just Toss In The Block - No Pumps To Buy Or Maintain
- \* Time-Release Formula Works 24 Hours A Day 7 Days A Week
- \* Environmentally Friendly
- \* Lasts Up To 30 Days

Trap Size	Recommended Dosage	Approximate Life
5 - 40 gallons	One block	25 - 30 days
40 - 80 gallons	Two blocks	25 - 30 days
