

# K238 SEAL TITE

## *Expandable Insulating Foam Sealant*

### Industrial/Automotive Aerosols Specialty

A convenient aerosol that dispenses a one part, liquid urethane foam which expands 200% - 300% and cures to a durable, hard foam, insulating sealant. Fills large cracks and holes that caulk cannot. Forms an airtight, water resistant and weather resistant bond on surfaces such as masonry, wood, metal, glass tile and most plastics. Helps eliminate energy escape. Prevents the entrance of insects and rodents. Dries tack-free in 15-30 minutes and cures completely in 8-24 hours, depending on humidity. Easy to apply. Conforms to any shape.

#### FEATURES:

- \* Expands 200% - 300%
- \* Air Tight
- \* Water Resistant
- \* Seals Against Heat Or Cold Air loss
- \* Helps Cut Energy Costs
- \* Contains A Flame Retardant
