COVID-19**

# K244 COOL AID

*No Rinse Disinfectant, Deodorizer  
Coil & Fin Cleaner*

## Industrial/Automotive Aerosols Cleaners & Degreasers

**Cool Aid** is a non-acid, one step cleaner, disinfectant and deodorant formulated to penetrate and remove dirt and matted material quickly and easily from air conditioner coils and fins. No rinsing is required if applied to a functioning unit that produces moisture. **Cool Aid** produces its own condensation which washes soil away from contacted surfaces, leaving the unit clean, disinfected and deodorized. Rinsing is suggested on units that have been removed for repair or do not produce moisture during operation.

**Disinfectant Formulation** kills germs and bacteria that cause stale air and illness. Virucidal against Herpes Simplex Virus Type 1 & 2, Canine Parvovirus and Legionella Pneumophila. Tuberculocidal, Mildewstat, Fungicide. Effective via AOAC methodology against a wide variety of organisms. Controls mold and mildew.

Maintaining your air conditioner's coil and fins improves air flow, saves energy, extends the unit's life and will improve air quality.

### FEATURES:

- \* One Step Process
- \* Powerful Disinfectant
- \* Non-Acid
- \* Eliminates Disease & Odor Causing Bacteria
- \* Ready To Use Formulation
- \* Attacks Hard To Reach Areas
- \* Controls Mold & Mildew
- \* Accurate High Pressure Pin Spray
- \* No Rinsing Required
- \* Increase Air Conditioner Efficiency
- \* Fast Acting Foam Flushes Soil Away
- \* Provides Pleasant Citrus Scent
- \* Reduces Repair Costs
- \* Penetrates Dirt & Matted Material

### USES:

Air Conditioners, Auto Air Conditioners, Air Conditioner Services, Hotels, Motels, Homes, Office Buildings, Auto Repair Services
