

Concentrated Ice Melt Neutralizer

SALT RINSE is a concentrated cleaner and degreaser that attacks, neutralizes and removes salt, dirt, mineral deposits and rust from steel, aluminum, plastic, brass, chrome, fiberglass, hard tile, porcelain and galvanized surfaces.

SALT RINSE neutralizes corrosive film left behind by ice melting salts. Great for use as a flushing solution on the undersides of vehicles and on agricultural equipment to neutralize and remove corrosive chemicals.

FEATURES

- SAFE, TOUCHLESS SPRAY-ON CLEANING
- DESIGNED TO NEUTRALIZE AND REMOVE ICE-MELTING CHEMICAL FILM, SALT FILM AND OTHER CORROSIVE RESIDUES
- CUTS THROUGH DULLING WHITE, CHALKY RESIDUE LEAVING A CLEAN, FILM-FREE SURFACE
- SALT RESIDUE IS CHEMICALLY DISSOLVED WITHOUT HARMING SENSITIVE PAINTED OR FINISHED SURFACES
- WHEN DILUTED ACCORDING TO THE LABEL, THE READY-TO-USE SOLUTION OF **SALT RINSE** IS NON-CORROSIVE.
