

K268 POWERZYME GEL

Gelled Bio-Enzymatic Drain Maintainer With Citronella

Sewer & Drain Maintenance Quarts, Etc.

Powerzyme Gel contains a combination of enzymes and over 200 billion aerobic and anerobic bacteria that rapidly multiply creating a biofilm on drain walls that digests organic obstructions, doubling in number every 20 minutes.

The powerful gelled formulation allows bio-enzymes the needed time to multiply their colonies into effective “eating machines.” Extended contact results in a stronger and hungrier “eating machine.”

Citronella Oil, a natural fly repellent has been added to deter insects from drains and garbage areas.

Non-Toxic, Non-Acid, Non-Alkaline,
Non-Pathogenic, Non-Polluting.
Will not harm plastic, metal or
glass plumbing.

FEATURES:

- * Gelled Formula Clings To Plumbing Reducing Waste
- * Increase Contact Time Assures Maximum Effectiveness
- * Aerobic & Anerobic Bacteria Double Every 20 Minutes
- * Contains Citronella Oil - A Natural Fly Repellent
- * Completely Safe - No Acids Or Harsh Alkali
- * Enzymes Are Nature's Way Of Cleaning
- * Salmonella Free
- * Contains A Super Malodor Eliminator
- * Actually Eliminates Source Of Odors
- * Resistant To Quats, Phenols, & Chlorine
- * Helps Eliminate Drain Flies
- * Does Not Harm Plumbing
