

# K334 FOAMINATOR *(concentrate)*

## Heavy Duty Condenser Coil Cleaner

## Industrial/Automotive Liquids Cleaners

**Foaminator *(concentrate)*** is a non-acid, alkaline based cleaner. Its superior surfactants generate a time release heavy foam that holds metal ions into solution, while simultaneously pushing the dirt and oil to the outer surface of the coil where it can easily be rinsed away. **Foaminator's** exceptional performance results in improved heat exchange efficiency and decreased power consumption, resulting in lower operating costs. Meets USDA guidelines.

**Foaminator's** formula reduces cost per application. The packaging eliminates Hazardous Material shipping concerns. Also, less storage space is required.

### USES:

Air Conditioners, Auto Air Conditioners, Central Cooling Systems, Refrigeration Systems

### USED BY:

Hotels & Motels, Homes, Office Buildings, Air Conditioner Services, Auto Repair Services

### FEATURES:

- \* Cleans & Brightens All Condenser Coils
- \* Easy To Use
- \* Works Fast
- \* Leaves Coils Clean, Bright & Smooth
- \* Deeply Penetrating
- \* Reduced Fuming & Odorless
- \* Delayed Heavy Foaming Action
- \* Improves Heat Exchange Efficiency
- \* VOC Content Is 1%
- \* Meets USDA Standards
- \* 100% Biodegradable
- \* Concentrate Reduces Cost Per Application
- \* Eliminates Hazardous Material Shipping Concerns
- \* Requires Less Storage

*(After Use, Water Rinse Is Required)*
