

Heavy Duty Condenser Coil Cleaner

Foaminator (aerosol) condenser coil cleaner is an alkaline-based, non-acid formula that sprays through coils as a liquid. After 20 to 30 seconds, it begins to foam heavily pushing contaminants and oxides to the surface to be easily rinsed away. *Foaminator (aerosol)* does not atomize; this powerful cleaner will cause no skin irritation. Biodegradable, phosphate free and USDA authorized.

Clean coils improve heat exchange efficiency which results in energy savings and fewer repair bills.

FEATURES & BENEFITS

- Cleans and brightens all condenser coils
- Easy to use
- Works Fast
- Leaves coils clean, bright and smooth
- Deeply penetrating
- Reduced fuming and odorless
- Delayed heavy foaming action
- Improves heat exchange efficiency
- VOC content is 1%
- Meets USDA standards
- 100% Biodegradable

(After use, water rinse is required)

APPLICATIONS

An excellent product for air conditioners, central cooling systems, refrigeration systems and auto air conditioners. For use in hotels/motels, homes, office buildings, air conditioner services and auto repair services.
