

K345 JACKHAMMER

Drain Opener & Maintainer

"Thermo-Chemical Crystals"

Sewer & Drain Maintenance Powders

Jackhammer is a citrus scented thermo-chemical crystalized powder designed to destroy hair, soap scum & slime. **Jackhammer** also flushes urine salts from urinal traps.

Why A Crystalized Powder?

Liquid drain openers will penetrate a small opening through the clog. Generally this opening will clog again after a brief time. **Jackhammer's** crystalized powder will coat the entire circumference of the pipe, to completely remove the clog and treat the pipe with a silicone protector to help prevent future clogs.

Jackhammer is more concentrated than liquids, since water is not part of the formulation.

FEATURES:

- * One Case Of **Jackhammer** Is Equivalent To 4 Cases Of Liquid Drain Opener
- * Crystalized Powder Is Designed To Coat The Entire Circumference Of Pipe For Maximum Effectiveness & Restore Full Flow
- * **Jackhammer** Is Designed To Destroy Hair, Soap Scum & Slime
- * **Jackhammer** Is Citrus Scented, Fume Free & Will Not Burn Or Etch
- * **Jackhammer** Will Not Harm Plumbing, Fittings Or Fixtures
- * **Jackhammer** Is Also An Excellent Preventative Drain Maintainer
- * **Jackhammer** Will Provide A Silicone Coating To The Walls Of Drain To Help Prevent Future Clogs
