

K382 POWER HOUSE

Industrial Degreaser Concentrate

Industrial/Automotive Liquids Cleaners

Power House concentrated surfactant cleaner and degreaser is specially formulated to be effective where cutting and lubricating oil are used. Oil miscible technology (O.M.T.) holds grease and oil in suspension for extended periods of time, allowing easy removal. Use with automatic scrubbers, pressure washers, mop applications or spray & wipe. **Power Houses's** triple action - cleaning, degreasing, deodorizing is appropriate for commercial buildings, office spaces as well as industrial facilities and equipment. Rapid biodegradability helps preserve the environment.

For best results, follow these application recommendations:
