

# K404 Pan Kleen Concentrate

Air Conditioner Condensate  
Cleaner & Deodorizer

**Pan Kleen Concentrate** is an environmentally safe way to control algae and slime in air conditioning pans, lines and refrigeration equipment. **Pan Kleen Concentrate** helps avoid clogging, eliminate odors and keeps drain lines clean and flowing freely.

The thickened liquid clings to the walls of drain pipes to assure long lasting results.

**Directions:** Apply **Pan Kleen Concentrate** on a clean surface before any clogs have formed. If clogs already exist, use Kayline's **Orange Blossom** to unclog before using **Pan Kleen Concentrate**. For air conditioning units add 1 ounce of **Pan Kleen Concentrate** for every 1 ton of air conditioning capacity. Apply every 30 to 60 days to assure pans remain clean.
