

K631 LIFT STATION DEGREASER

Floating Lift Station Degreaser

Sewer & Drain Maintenance Liquids

Keep lift station walls clear and clean with one easy to use product. This drain cleaner is made with a blend of carefully selected solvents and emulsifiers which easily strip and dissolve grease, allowing it to be dispersed into the water for complete removal upon pump out. Since it's lighter than water, **Lift Station Degreaser** will float on the surface of water to strip deposits from the sides and walls of lift stations, sewer lines and grease traps. It thoroughly removes grease accumulations because it covers large areas of station walls and equipment with the natural rising and falling of sewage levels. For an effective, efficient and simple way to clear out grease in municipal systems, try **Lift Station Degreaser**.

FEATURES:

- * Will Not Interfere With Natural Bacterial Action
- * Allows Grease & Fats To Be Dispersed In Water For Removal By Pump Out
- * Floating Solvent Degreaser Assures Contact With Sidewalls As Sewage Levels Rise & Fall
- * Helps To Reduce Odors Generated In Holding Areas

USES:

Pumping Stations, Wet Wells, Sewer Lines, Spray Cleaning, Dip Cleaning, Motors, Electrical Parts, Removes Adhesives & Decals, Opens Sewers & Drains, Dissolves Organic Matter, Grease, Lint, Paper
