

K70 Shield

Protective Hand Barrier Cream

SHIELD aids in protection of skin from irritants such as ink, salts, acids, corrosive alkalis, solvents, gasoline and other chemicals. Forms a barrier to prevent grease, paint resins, soil and ink from penetrating the skin's pores and creases. Keeps skin cleaner, minimizing cleanup time. For use in the following industries: petroleum, automotive, printing, aircraft, plastics, metal, paint, chemical, landscaping, and research laboratories. Note: Contains Lanolin. Use care in paint and body shops.

Directions: SHAKE WELL. Apply a generous amount into hands and rub well into skin, covering all areas including around and under fingernails. Apply to any skin surface where protection is desired. For removal, apply soap and work well prior to rinsing. Reapply when desired.
