

**Ice Melter And
Salt Activator**

LIQUID ICE MELTER melts ice and snow and prevents freezing on walks, driveways, intersections, culverts, bridges, steps, ramps, loading docks or other places where ice and snow may be a problem.

LIQUID ICE MELTER can be used to help melt ice and snow on equipment. Spray or pour on road sand to help prevent freezing and caking. Improves qualities of the sand and allows for better traction.

LIQUID ICE MELTER is ready to use and contains no harsh heat-generating chemicals, and is therefore safe for use in sewage plants. Non-corrosive formula means that it will not harm surfaces.

LIQUID ICE MELTER works at temperatures well below 0 degrees. It will not harm cured concrete, grass or shrubs, nor tile or carpeting.

FEATURES

- Easy to Use
- Leaves No Residue
- Works Effectively at Very Low Temperatures
- Non-Corrosive—Will Not Harm Surfaces
- Improves the Safety by Preventing Costly Accidents

USE ON

- Windshields
- Sidewalks
- Driveways
- Steps
- Ramps
- Streets
- Bridges
- Loading Docks
- Pavement

USED BY

- Schools
- Municipal Buildings
- Office Buildings
- Hospitals
- Manufacturing Plants
- Warehouses
- Apartment Buildings
- Airports
- Churches

SPECIFICATIONS

PACKAGED	DRUMS; 5-GALLON-PAIS
APPEARANCE	LIGHT RED LIQUID
FRAGRANCE	CHARACTERISTIC
PH	8.00
FLASH POINT.....	NONE. NON-FLAMMABLE
AUTHORIZATION.....	REQUIRES NO AUTHORIZATION BY USDA
	PRIOR TO ITS USE IN OFFICES AND SIMILAR NON-PROCESSING AREAS.
