

KA365 SEWER ANTI-FOAM

Controls Foaming

Sewer & Drain Maintenance Liquids

Sewer Anti-Foam is a concentrated liquid that contains special silicone de-foaming agents for fast knockdown of foam due to detergents, surfactants and organic materials in the water. Its water-based formula is non-polluting, and prevents re-foaming and the formation of scum blankets - regardless of the water's pH level.

USE IN:

Sewage plants, Textile Mills,
Mixing Tanks, Digesters, Aerators,
Anywhere Detergents Cause A
Foaming Problem

FEATURES:

- * Non-polluting, Water-Based Formula Contains Special Silicone De-Foaming Agents For Fast Knockdown
- * Reduces The Surface Tension Of Sewage Water To Levels Too Low To Support Formation Of Foam
- * Residual Anti-Foam Ingredients Prevent Foam From Returning
- * Can Be Dripped Into Digesters Or Poured Directly Into Waste Streams Immediately Prior To Foam Accumulation
- * Concentrated: One Quart To One Gallon / 10,000 Gallons Wastewater
