

T37 UNDERCOAT

Durable, Flexible, Rubberized Coating

Industrial/Automotive Aerosols Specialty

A super durable, flexible, rubberized coating that protects auto under bodies against corrosion caused by water, road grim, and salt. Reduces unwanted noise and vibration. Stays pliable in heat or cold. Resists cracking, peeling, and abrasion. Sprays as a tough black sealant that goes on thick and sets up fast. Can be painted when dry.

FEATURES:

- * Prevents Rust
- * Muffles Sound
- * Seals Out Road Salt & Water
- * Flexible In Heat Or Cold
- * Wear & Abrasion Resistant

USE ON:

Auto Under Bodies, Auto Fleets,
Construction Equipment, Aircraft,
Boats, Stainless Steel Sinks,
Air Conditioning Pans

USED BY:

Auto & Diesel Repair Shops, Garages,
Taxi Companies, Machine Shops,
Public Transportation, Equipment
Manufacturers, Air Conditioning
